

# TMA / Allegro Funds Turnaround Case Competition 2021

TMA Australia and Allegro Funds are pleased to present their inaugural turnaround case competition. This case represents a dynamic opportunity to put your skills to work, network with your peers and test yourself against the best and brightest of the TMA NextGen network nationally. The winning team will receive a prize and award at the TMA national conference in October.

Working in a small team, you will be provided with a real company facing challenges and requiring a turnaround and you will prepare an investment recommendation for a private equity fund's investment committee.

You will have four days to prepare a short presentation of 10 pages or less with your investment recommendation, deal price and structure and turnaround plan.

The top five team submissions will present their pitches to a panel of judges and the winning team will receive an award and prize at the TMA national conference.

To compete, form a team of between three to five members with at least one TMA member and at members from at least two organisations. Eligibility criteria and registration details can be found below.

## Panel of judges

**Cameron Belyea**  
Clayton Utz
